SCANDALOUS AFFAIR IN FRANCE-A BRAUTI-PUL HEIBESS ACCEPTS HER COACHMAN AS HER Lover.-The Paris correspondent of the New York Express gives an account of a case which occurred near Tours, France, in which a young lady of high position contracted a culpable

connection with her mother's coachman. The mother, to conceal her daughter's shame, strangled the new-born babe, and endeavored by fire to destroy the last vestiges of its existence. The correspondent says: The name of the principal actress is Mad. Lemoine de Chenon, and Madamoiselle Angeina de Chinon is the appellation of the young

girl whose fall has thus brought everlasting disgrace on herself and her whole family. There does not seem to be much sympathy for Angelina, though apart from her first misstep, she is really more deserving of pity than

Madame de Chinon has hitherto occupied a high social position, and was in the enjoy-ment of a handsome fortune. Angelina, her daughter, is not yet eighteen years af age, has been brought up elogantly and aristocrat-ically, is described as very beautiful, and fell a victim to the seductive wiles of a coachman. In France, where caste is so jealously guarded, in all the relations of social life, the thing is incredible. It is for this reason that nobody sympathizes with Angelina, it being perfectly well known that without the most marked adwell known that without the most marked advances on her part, no employe, no poor youth, however respectable—much less a vulgar servant—would think of raising his eyes to her. And granting such a fellow as this coachman to have free access to his young mistress' presence, what could have been the charm of his conversation to a lady of her breeding and advantage.

LONGFELLOW ON WASHINGTON INVING .-Longfellow, the poet, at a recent meeting in Boston, to honor the memory of Irving, made these remarks:

Every reader has his first book. I mean to say one book among all others, which in early youth fascinates his imagination, and at once excites and satisfies the desires of his mind. To me this first book was the Sketch Book of To me this first book was the Sketch Book of Washington Irving. I was a school-boy when it was published, and read each succeeding number with ever-increasing wonder and delight; spell-bound by its pleasant humor, its melancholy tenderness, its aimosphere of reverie, nay, even by its gray-brown covers, the shaded letters of the titles, and the fair, clear type, which seemed an outward symbol of the style.

of the style. How many delightful books the same author has given us, written before and since; vol-umes of history and fiction, most of which illustrate his native land, and some of which illuminate it, and make the Hudson, I will not say as classic, but as romantic as the Rhine! Yet still the charm of the Sketch Book remains unbroken; the old fascination still lingers about it; and whenever I open its pages, I open also that mysterious door which leads back into the haunted chambers of youth!

back into the haunted chambers of youth!

Many years afterward, I had the pleasure of meeting Mr. Irving in Spain, and found the author, whom I had loved, repeated in the man. The same playful humor, the same touches of sentiment, the same poetic atmosphere, and what I admired still more, the entire absence of all literary jealousy, of all that mean avarice of fame, which ceunts what is given to another as so much taken what is given to another as so much taken from one's self-

'And rustling hears in every breeze, The laurels of Miltiades."

WENDELL PHILLIPS ON JOHN BROWN ONCE MORE.—Wendell Phillips lectured last Sunday other ultra things said: "What has John Brown done for us? The world doubted, over the horrid word "insurrection," whether the victim had a right to arrest the course of his master, and even at any expense of blood, to vindicate his rights; and Brown said to his neighbors in the old school-house at North neighbors in the old school-house at North Elba, sitting among the snow—where nothing grows but men, wheat freezes—"I can go South and show the world that he has a right to rise, and can rise." He went, girded about by his household, carrying his sons with him. Proof of a life devoted to an idea! Not a single spasmodic act of greatness, coming out with no back-ground, but the flowering of sixty years. sixty years.

The proof of it, that every thing around him grouped itself harmoniously, like the vlanets around the central sun. He went down to Virginia, took possession of a town, and held it. He says—"You thought this was strength; I demonstrate it is weakness. You thought this was civil society; I show you it is a den of pirates." Then he turned around in his sublimity, with his Puritan devotional heart, and said to the millions, "Learn!" And God lifted a nvillion hearts to his gibbet, as the Roman crows lifted a million of hearts to it, in that divine sacrifice of two thousand years sgo. To-day, more than a statesman could have taught in seventy years, one act of a week has taught these eighteen millions of people. That is the Puritan principle."

TWO CHILDREN BURNT TO DEATH IN NEW YORK.—Mrs. Edgar Ackley, at Saugerties, N.
Y., left a child alone in the room, a few days since, and its clothes taking fire from the grate, the little unfortunate was burnt to death. A child of Robert Phelps, of Northeast, in the same State, was so shockingly burnt about the same time that it died the following day. The mother, who had put her babe to bed and left the room, discovered soon after that the apartment was on fire, caused by the upsetting of a fluid lamp.

DANGER OF FOLLOWING WOMEN AFTER NIGHTyall.—The other night as a very respectable gentleman of Franklin, Ind., was returning from church, he overtook a female, to whom he paid but little attention, but on observing him near her she began to run, and he follows at a somewhat increased pace, merely for curi-city, when she turned upon him and fired a pistel at him, but without any serious effect. The moral of this is, a man overtakes a "strange" woman after night, and she runs, he had better not follow within pistol range.

THE GOVERNOR OF BOGOTA MURDERED BY HIS BROTHER JESUS.—On the 1st of November, Jose Maria Malo Blanco, Governor of Bogota, was murdered by his brother Jesus. The parents of these two brothers had died about the same time a few years ago, leaving Don Jose the executor of the will. The property was divided in accordance with their wishes, but the younger brother, Jesus, not satisfied with his inheritance, charged the elder with unfair-ness in his distribution, and afterward shot him dead in the street.

THE LETTERS OF JOHN BROWS.—Cheever, in a late sermon in New York, made this re-mark: "The letters of John Brown are destined to an immortality of study and of admi-ration, in connection with his martyrdom, such as not even the memorials of Sidney, of Russell, or of Hampden, ever have gained. They are at this moment a light to millions amid darkness and trials."

EXTRAORDINARY SCENE IN COURT ON THE AC-QUITTAL OF A MURDEBER-WOMER FASCINATED BY A HANDSOME SAVAGE. - The strange halfworship of Heari Jumpertz by the women of Chicago, can only be explained by the supposition that he owes the deep interest he has inspired to the fact of murdering one of their own sex, to whom he was bound by every tie of honor and affection, in the most horrible and brutal manner possible. The Times of that city thus refers to the scene of his acquit-

As he entered the Court and beheld the array of female faces turned upon him, his lips were the laselvious smile which the spectators have so frequently noticed. He glanced at the jurors, and then fixed his eyes upon the clerk, to whom the verdict was handed by the foreman. The room was hushed to perfect

foreman. The room was hushed to perfect silence as the clerk read the verdict which announced his acquittal.

Then from the woman and the sympathisers, and friends of the prisoner generally, rose up a burst of applause, which was quickly suppressed by the sheriff.

The prisoner leaped upon his feet and desired to make a speech to the Court and crowd. He proceeded to say: "I thank the judge for the attention he has paid the case; but the principle thing I have to say is, if there is any thing in this case I can clear up, I would like to do it; if there is any doubt, I would like to clear it up."

The Court very properly informed him that

The Court very properly informed him that it was not the place for him to make a speech. He then, after shaking hands with his counsel, the jurors and some others, a few of whom congratulated him upon his narrow escape of the halter, left the Court-room in company with his counsel. The crowd followed him as they would have followed some curious monster, the females manifesting the greatest eagerness to get near him. To escape their persistent attentions, he entered the jail, and there took leave of his comrades in imprison-

A CURIOUS OLD GRENAN CLOOK.—The New York Courier and Enquirer of late date says: The artist Church, during his late expedition to the North for the purpose of sketching ice-bergs, discovered in the possession of a Dutch family in Nova Scotis, an old German clock which was made by Huyghens somewhere about the year 1640. It has, since his return, been repaired and put in running order, by a watchmaker in Hartford, and, though it has not run for more than half a century, it is now keeping good time, and may last another two centuries. It has been handed down in the same family, from father to son, for gen-crations. It is somewhat of a curiosity, from the fact that it is one of the first clocks made with a pendulum. The action of the pendu-lum on the wheel is not direct, by means of a pallet, as in our modern clocks, but operates by a vertical vibrating bar with "snugs it, catching into the teeth at each oscillation. The clock strikes the hour and half hour, and is wound up by means of an endless chain.
The frame is of black ancient oak, and is open, exposing the works, which are of brass, nicely finished.

ENGLISH FEAR OF THE INVASION OF IRELAND ENGLISH FEAR OF THE INVASION OF IRELAND BY THE FRENCH.—Some of the Irish journals are discussing the probability of a French invasion of Iroland. They think that in the event of Louis Napoleon declaring war against Eogland, one of his first steps would be to land a powerful force in Iroland and take possession of the principal ports of the island. There are few places in Iroland fit to resist a strong invading force; and a French expedition would find many sympathisers there. Even the English journals, in speculating upon a rupture with France, express apprehensions ce, express apprehensions that the French Emperor would, simultaneously with an attack upon England, make a diversion in Ireland, and avail himself of the support of the disaffected portion of the population. In view of this danger, the British Government has directed its attention to the fortification of the Irish coast; and orders have been issued for the construction of bat-teries at the points most likely to be first as-

MICE-ROBBERS IN MINNESOTA-THEIR CRIME PUNISHED WITH DEATH.—A merchant in St. Anthony had lost from his money-drawer lately a number of bank-bills at various times and could not account for their loss, and all and could not account for their loss, and all attempts to trace them by marking were unavailing, and he had almost given up the idea of detecting the thief, when on pulling the drawer, entirely out, he found under the counter a nest, composed entirely of bank-bills, in which were four dead mice. The last one atolen was on "The State Benk of Minnesota," badly gnawed. There was not enough vitality in it to keep the mice alive, or there was a poisonous ingredient in the bill that laid them

THE LATEST PARISIAN BALL COSTUMES .- LA Follet says in a late number: An elegant ball dress may be made of white tarlatan, with twenty-four flounces, each edged with a full ruche of tulle illusion, the ruche itself edged with very narrow black lace. The body plain and pointed, open, en coeur. Over this should be worn a berthe to match the flounces, fastoned in front by a bouquet composed of four chrysanthemums—pink, pale lilac, white, and light cerese, without Jeaves. Bouquets to match on the skirt, six on each side, arranged es tablier from the bottom of the skirt to the waist. With this robe the hair should be dressed with chrysanthemums and black and

FINANCIAL EMBARRASSMENTS OF MEMBERS OF CONGRESS.—The Washington correspondent of the New York Journal of Commerce writes: "The members of Congress will be obliged to go through the holidays without a cent of money, unless the House make a Speaker. They are getting pretty hard up now. Some of them have given drafts at short dates that are maturing. The Sergeant-at-Arms has advanced the most needy about \$40,000, and his bank must be nearly exhausted. The his bank must be nearly exhausted. The whole amount due to the members is about a million of dollars."

A.MERCHART FATALLY SHOT BY HIS CLERK. A MERCHART FATALLY SHOT BY HIS CLERK. An affray occurred in Chickasaw, Ala., recently between Mr. a Merrill and a Mr. Dobbs, in which the latter received a pistol shot which will prove fatal. The parties were both considerably intoxicated, and Dobbs, who had been employing Marrill as a clerk for several weeks, being about to discharge him, demanded the key of his store. The elerk having refused to give it up, Dobbs struck him, and Merrill drew his pistol and shot his antagonist twice through the body.
